tion—the first in this section of the State.

An order was introduced in the Lewiston common council, Monday evening, and unanimously passed by that branch, look hag to the utilizing of water power for electric lighting, as is being done elsewhere in the State. A similar order was passed, last year, but no definite action taken. It was stated in the board that, if, as is estimated, only about overthird of the pumping station to which the city is entitled, is used, it would seem an economical way to dispose of the balance. Since the corporations, including the Union Water Power Company, are no less interested than the citzens in general in the judicious expenditure of the city's money, paying, as they do, a very large proportion of the taxes, it ought, it was argued, to be an easy thing—if not airendy sufficiently clear on that point—to put such construction upon the agreement between the city and this company as shall permit utilizing, for mutual benefit, of these provisions of nature that are now going to visions of nature that are now going \$

is not thought to be fatally hurt.

Rev. John Snyder, of St. Louis, preached at the First Parish church, in Portland, a short time ago, says the Advertiser. After his visit to Portland he wrote a piper which was read before the Unitarian club of St. Louis] criticising the working of the prohibitory haw in Portland. General Neal Dow charged him with being in the pay of the liquor leagues. Rev. Mr. Snyder has written to the Agus, emphatically denying this and calling upon General Dow to produce proofs or make a public appology.

The residence of Rev. B. F. Davis, of Farmington, burned to the ground, Monday evening. The builtings were situated in what is called the Bailey neighborhood, a little distance from Farmington village, and near the New Sharon line. Their owner is a Free Baptist clergyman, and much sympathy is felt for him in his loss. Lying asleep on a lounge he was awakened by the crackling of the flames, and oppning a door he found that the whole hobse was on fire, and that it had made so much headway that it was vain to hope to save it.

The Destin & Hubbard Manufacturing Company have bought the grist mill adjoining their property at Oakland, and formerly owned by the late Samuel Binisdell, for \$5,500. This gives them full control of the water power on the west side of the upper privilege.

"uesday some practical loker sent a main, who was in Augusta to visit his brother, an inmate of the Insane Hospital, to the State House, and the individual walked holdly into the rotunda and to the Pension Agent, presenting to that officer a letter of introduction to one of the Hospital physicians. Col. Sprague directed him to the institution which he was in search of.

At the Maine Insane Hospital, Monday At the Maine Insate Hospital, Monday evening, a brilliant sereonade was given by the hospital band, J. B. Cleary, leader, in honor of the recent marriage of Dr. H. H. Hill, first assistant superintent ent, to Miss Jeanle B. Redion, of Riverside. The doctor has just returned from a quiet bridal trip in Massachusetts, and was heartly reportulated and welcomed by his friends. The officers and band were tendered a pretty recention and after a witty and balance the loss on freight that will be

Jeuninga Brothers have been obliged to double the capacity of their canning factory at North Wayne, the present year. Three firms in Boston were negotiating for an unlimited pack of corn, which finds a ready market in Boston and New York. Corn, tomatoes, squash and apples will be put up at this factory the coming fall. A large steam boiler will be added, besides necessary machinery to carry on the business. The different sizes of cams used are now manufactured at the shop. Mr. Wm. White, of Fitchburg, Mass., has charge of this department. This establishment gives employment to many peor lie in the canning season, besides distributing a large sum of money to the farmers. This is a fine location for the raising of this crop, principality bigh and early land.

Fish Commissioner Counce, of the sea fisherles, says that lobsters captured this spring are very small and assigns their size to the wholesale destruction which has been practiced. Burcham & Morrill's cauning factory, at Port Clyde, has not been in operation this year but the others are in full blast. After the first of July they will be limited to lossters 10½ inches long and over.

Dixfield, says the Oxford Democrat, is just now one of the Oxford county towns that is expecting a business boom, and preparing for it, Nearly everybody expects that within two years the sound of the locomotive whistle will reverberate through the Androscoggin Valley, and everybody is g. ad of it. A large corn factory and a large spool mill are already assured to Dixfield. Camille Denioue was having rome sort of a celebration Tuesday, and during his peregrinations about town in the afternoon strolled into the Laconia mills and entered Overseer James Read's room. There he singled out John Smith, an operative, and going up to him inaugurated a war of words which led to blow; and finally terminated in a knock-down confroversy, in which Denioue bit off the greater part of Smith's ear, besides blacking his eyes and otherwise disfiguring his face.

Martin Holland, of Portland, while helping in tearing down an old building, Tuesday, fell from the roof, a distance of about fifteen feel. He struck on his side and was badly bruised.

Tuesday evening Edwin Jordan, a switchman on the Maine Central, while putting on the brakes of a moving flat car, fell to the track and the car wheels passed over one arm, severing a portlon of it. One of the man's cars was badly cut and he received other cuts about the head. Jordan was taken to his home. He is not thought to be fatally hurt.

Rev. John Snyder, of St. Louis, preached and resolution was unanimously adopted:

"Whereas the Rev. L. L. Hanscom, pastor of this M. E. Church for the past two
years, by genial life and social habits as
well as by his able and earnest prenching,
and other labors for the cause of humanity and the church of Christ, has endeared
himself to church and congregation.

Therefore, Resolved that we, the official
members request the Bishop to reappoint
him to this pastoral charge for another
year."

A California Train Stopped and Plundered.

San Francisco, April 28. One of the most audacious, desperate and successful train robberies ever recorded, occurred yesterday on the west-bound overland train on the Southern Paelife Rallrad, near Tucson, Arizona. A despaton from Tucson says: The west-bound express, due here at 10.30 last evening, was stopped and robbed at Papago station, eighteen miles east of here, about 9.30. The number of men engaged in the robbery is variously estimated at from five to eight Col. Harper, engineer, when approaching Paously estimated at from five to eight Col. INSURANCE IN NEW HAMPSHIRE. Report of the Insurance Commissioner. Report of the Insurance Commissioner.
CONCORD, N. H., April 28. From allvance sheets of the eighteenth annual report of Hon. Oliver Pilisbury, Insurance
Commissioner, the following facts are
gleaned covering the business of the year
1886. The fire insurance companies organized under the laws of this State cousist of eight stock, seventeen State and
twenty-one town mutuals. These companies assumed risks in this State last year
amounting to \$50,076,638. The fire companies that withdrew from the State 31, 1886, had still in force in this State risks to the amount of \$26,649,958. The asso-ciated manufacturers' mutuals, under their peculiar system, had risks in force in this State at the same date amounting to \$35,-047,729. Underground open-jors also have no inconsiderable amount at risk in the State, although this amount has decreased materially since several of the wildeat genus collapsed. to the amount of \$26,549,958.

The Amount at the carried as follows: Home companies, \$60,000,000; retired companies, \$26,549,588; manufacturers mutuals, \$35,047,729; total, \$121,537,687. Cash premiums were total, \$121,597,697. Cash premiums were received by home companies in 1886 to the amount of \$555,926.34 showing an average charge of 1.1 per cent. on the amount received. The following losses were pain although outside agency companies doing the most business in the State are not included herein: home companies, \$112,030; retired companies, \$355,487; manufacturers mutuals, \$357; tewn mutuals, \$2,071,qutside agency companies, \$12,560; total \$282,537. Mr. Pillsbury says: "The capital of all our stock companies might capital of all our stock companies might be doubled and their number too, and they would then be inadequate to safely insur-the insurable property of the State. There is therefore necessity under existing cir-cumstances for

Building Up Mutual Companies. Building Up Mutual Companies:

By a recurrence to the figures already given it will be noticed that the home companies are not now carrying half of the insurance in force in the State if the manufacturers inputuals are included, and that they paid less than 40 per cent of the losses that were paid during the past year. Most of the risks still carried by the retired companies will expired union the current of the current state of the state of t Most of the risks still carried by the re-tired companies will expire during the cur-rent year. The retired companies puid more than twice as much on losses in this State in 1886 as in 1886, and of course will pay much less in 1887, since their risks in force are much reduced by expirations. These facts may not be pleasant to con-template, but it is unwise to ignore them and thus decrive ourselves. I do not al-

and thus deceive ourselves. I do not allude to them to awaken anxiety, but as an admonition to our insurance companies to strengthen and fortify themselves for the protection they will be called upon to af-

ford."

In view of the situation it has been very properly suggested, as a means of inviting cupital to enlist in the insurance business, that all insurance capital be exempt from traveller.

THREATENED STRIKE

School Convention at Chicago, June 1, 2

To be Inaugurated in Chicago Monday.

Chicago, April 28. A strike, directly affecting five or six thousand hod-carriers and laborers, and necessarily, involving practically all the bricklayers, plasterers, and stonemasons in the city, will probably be inaugurated May 1st, and building operations in Chicago promise to be indefinited by suspended again.

The hod-carriers and laborers, following the example of the painters and carpenters, made a demand some months ago for higher wages and shorter hours. Since then the Employers' Association has twice decided not to accede to the demand. The men have persisted, naming May 1st, as the day when the demand should be enforced.

Early in the evening the spacious grounds were brilliantly lighted with Chi-nese lanterns, which were arranged along the walks and drives, in the gate arrhway and about the lawn and porch. Inside most profuse and tasty floral decorations were everywhere visible.

Smilax and other greenery sparingly used gave the main hall a light and festive appearance. The pariors were elaborately adorned with rare blooms, heaped and ly adorned with rare blooms, heaped and entwined here and there, gathered into exquisite bonquets or arranged in large and attractive fieral pieces. The mantel was heavily banked with lilacs, and above it, in front of a large mirror, hung a lovers knot of geranitous and smilax, on which perched two white doves. Here and there through this and other rooms were magnificent floral creations and baskets of flowers, which came with the compliments of admiring friends. Indeed, one gay young dog, called Jacobus, was proceeding from jokes linguistic to jokes practical Perceiving that Juss only kept her seat on the mans saddle by the exercise of a curious faculty of balance, it occurred to him that it would be a fine thing to upset it and make her fall upon her face. Accordingly, with a sudden twist of the rein he brought his horse sharply against her weared animal, hearly throwing it down, but she was too quick for him, and saved herself by eatching at the mano. Jess sand nothing, indeed, she made no enswer to her tormentors and fortunately John understood very little of what they were saying. Presently, however, the young Boer made another attempt, putting out his hand to give her a sly push and as it happened, John saw it, and the sight of the indignity made the blood boil in his veins Before he could reflect on what he was doing ho was alongside of the man, and, catching how as alongside of the man, and, catching how as alongside of the man, and, catching how he the throat, had hurled him backward over his c upper with all the force be could commund. The man fell heavily upon his shoulders and instantly there was a great hidder. However, and the other Boers raised their rifles, and Jess thought that there was an end of if and put her hand before her face having first thanked John for avenging the insult with a swift liash of her beautiful eyes. And, indeed in another second it would have been all over had not be determined and the had witnessed the proceedings that led to his followers discomfiture and, being a decent man at bottom had disapproved of them.

victurs. She saw too why ber old uncle had
been condemned to death—that was to be
used as before his men but a moment's reflection showed that this was impracticable. For his own safety he would be obliged to stop her mouth southcast and the best she could expet which be to be meanterated and rendered quite powerless. If only she could manage to communicate with Bessel 4t any rate, it was absolutely necessary that she should know what was going on she might as well be a hundred miles away as a huncred yards.

Junite she said 'till me where the Boers are?

Some are in the name.

Some are in the wagon house, missis, s are in an wagon house, missis, some are in such a rest are down by the wagon they brought with them and outspanned behind the guns there. The cart is there too, that came just before you did, with the clergy man in it."

"And where is Frank Muller?"

And waste is rrank Muller?'
I don't know missie but he brought a round tent with him in the wagon, and it is pitched between the two big gums.'
Justie I must go down there and find out what is go ng on, and you must come with me."

me" "You will be caught, inissis There is a sentry at the back of the wagon house and two in front But," he added, 'perhaps we might get near I will go out and took at the week!"

might?

Presently he returned and said that a small ran," had come on and the clouds to ered up the stars so that it was very dark "Well, let us go at once, said Jess "Missle, you had better not go," answered the Hottentot. "You will spet wet and the Boers will eatch you. Better, let me go I can creep about his a suske, and it has Boers atch me it won't matter?

'You must come too, but I am going I must find out."

Then the Hottentot sprayers his choulders.

Then the Hottentot shrugged his shoulders and yielded, and hisving oxtinguished the candle, silently as ghosts they crept out into the night. (To be continued.)

Wonderful Popularity of the Re-

No medicine introduced to the public has ever met with the success accorded to Hop Bitters. It stands to-day the best known curative article in the world. Its marvelous renown is not due to the advertising it has received. It is famous by reason of its inherent virtues. It does all that is claimed for it. It is the most powerful, speedy and effective agent known for the building up of debliftsted systems. The following witnesses are offered to prove this.

What it Did for an Old Lady.

"BLOOD WILL TELLI"

I es, the old adage is right, but if the liver is disordered and the plood becomes thereby corrupted, the had "blood will tell" in diseases of the skin and throat, in tumors and ulcers, and in tubercles in the lungs (first stages of consumption) even although the subject be descended in a straight line from Richard Cœur de Lion, or the noblest Roman of them all For setting the liver in order no other medicine in the world equals Dr. Pierces "Golden Medical Discovery" Try it, and your "blood will tell" the story of its wonderful efficacy apr28 TuF&w
